Report of

Hodges, Robert

School Year 1935 1936.

Olive Skarren Teacher.

GERTRUDE GILLAM Principal.

AMOS W. GLAD, Superintendent

The image features a white, irregularly shaped piece of paper or cardstock that has been torn from a background. The background is a dense, halftone pattern of small dots in shades of red, orange, and brown. The white piece has several horizontal creases and a small, dark, irregular hole on its right side. The overall composition is abstract and textured.

Have a vision

The background is a dark, monochromatic image featuring a perspective grid of thin, dark lines that recede towards the left. A bright, circular light source is positioned on the far left, creating a strong lens flare and illuminating the grid lines, which become lighter and more distinct as they approach the light. The overall effect is a sense of depth and geometric precision.

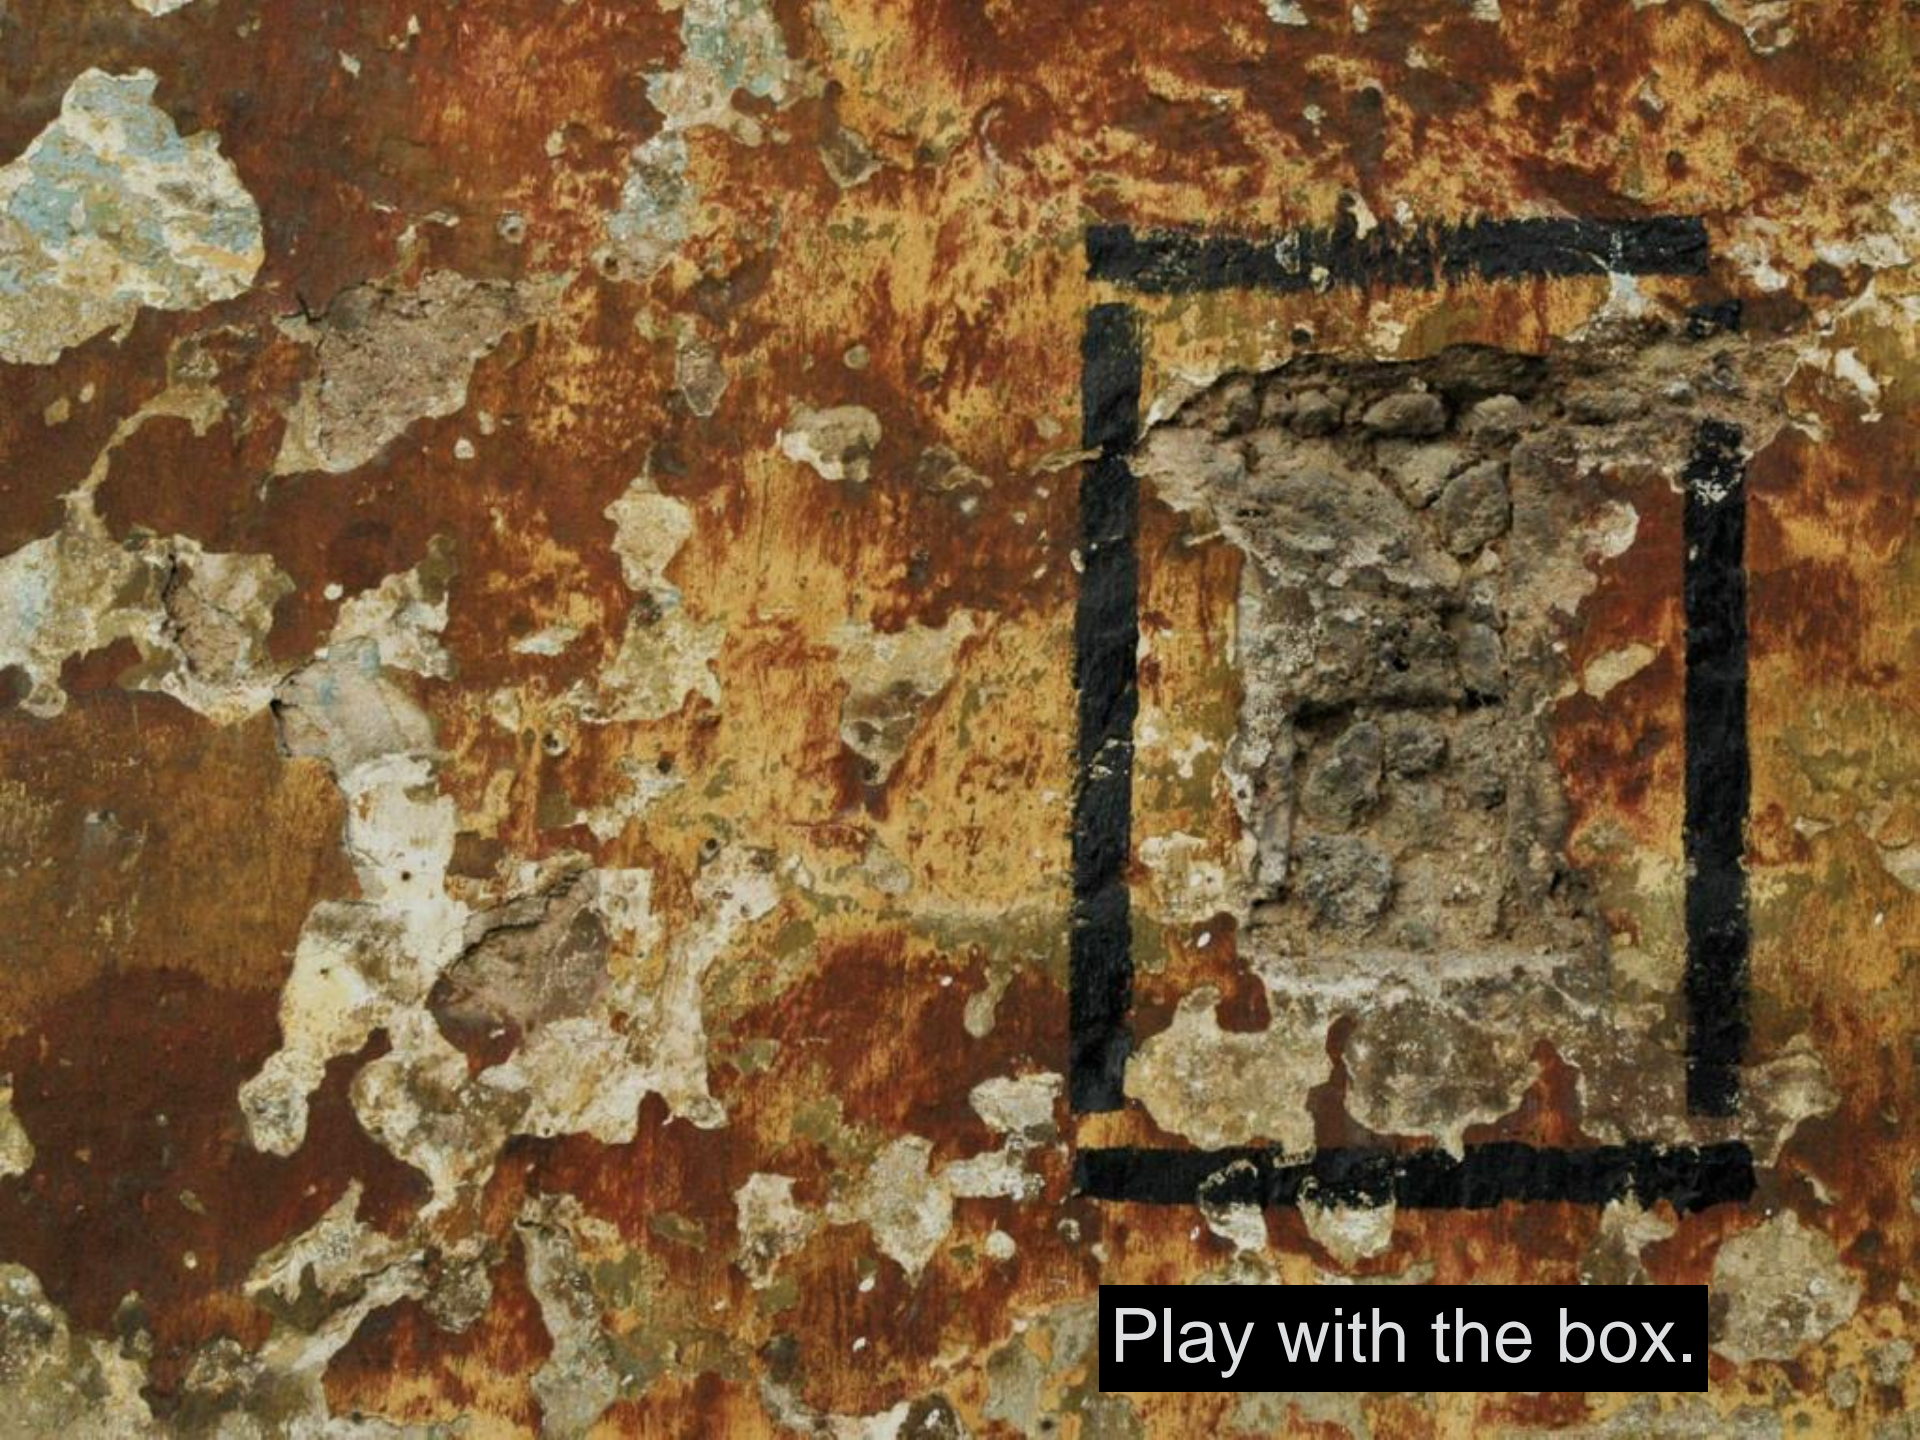

There is nothing worse
than a great image
of a fuzzy concept

- Ansel Adams

Deliver something meaningful

A large, solid black silhouette of Mickey Mouse's head is centered on a solid orange background. The silhouette consists of a large central circle for the face and two smaller circles on top for the ears.

Yes, and...

Polaroid
