The INSEAD CTAM Europe programme was an incredible experience. The quality of the professors, the standard of teaching, the interactive group teaching all made it an invaluable experience with insight and learning that can be applied to your working life. I feel, without doubt, a stronger leader as a result of the course. The cohort was also fantastic and the programme offered a wonderful opportunity to learn from other business leaders. It was also a wonderful experience to spend time on the INSEAD campus in the beautiful setting of the forest. The food was excellent and the programme of wine tasting, forest walking and fine dining made the whole week a truly valuable and unforgettable experience. I would not hesitate to recommend this programme to anyone looking to take their business learning to the next level.

"Wow, what a great week at the CTAM INSEAD program! The professors were consistently engaging, thought-provoking and leaders in their fields. The materials were tailored to our industry, so I came away with many ideas for my job and my company. While I already had an MBA, there was no repetition – the courses were all relevant and complementary. It was hard work, but I feel very lucky that I had the opportunity to attend!"

Vice President, Sand Cherry Associates

"The Executive Education programme offered an extremely broad curriculum in just one incredible week. I was challenged and inspired in equal measure and embraced the opportunity to engage with professionals from my industry. The group work and class debates illuminated the fast pace of change happening across sectors of the media, and armed us with the right resources to tackle this evolution. The faculty were able to bring complex topics to life; and their expertise offered real world insight into the digital challenges cable and television companies face. I finished the course with concrete examples of how to apply what I'd learnt to my own organisation, valuable insight into the future of the industry and a renewed passion for what I do."
